

A Note About USDA Commodities

March 13, 2020

The Virginia Department of Agriculture has relaxed compliance guidelines for TEFAP (USDA commodities) and CSFP (senior boxes) that will help reduce risk and better protect both volunteers and clients. Until further notice, your organization is no longer required to obtain signatures from clients when logging services or when re-certifying clients. Intake workers can fill out forms and sign on behalf of clients. On Link2Feed, when selecting signature type, please select "Typed Signature" and type in the client's full name. Please note, at this time there has been no change to the income guidelines used when determining client eligibility.
